

## Dunany, We love you

When the sun comes up and the moon goes down, We love you  
When the moon comes up and the sun goes down, We love you  
In the blazing heat and the freezing cold, We love you  
If you don't come up, your house grows mold, We love you

**Chorus:** We love you  
We love you  
It's a home to young and old  
It's just too bad it's so darn cold  
We love you

There's not a single motor boat, We love you  
But in summer you need an overcoat, We love you  
For many the club's the place to be, We love you  
If you wanna' nail a really big tree, We love you

### **Chorus**

You don't need to call for a starting time, We love you  
But as for hole's, there's only nine, We love you  
85 years of golf and fun, We love you  
About 85 days of blue skies and sun, We love you

### **Chorus**

We keep members down to just a few, We love you  
"But the starter shack has no Mountain Dew", We love you  
By the end of June you don't see a fly, We love you  
And the lakes defrost by mid-July, We love you

### **Chorus**
